VINIT PAWAR

+91 83056 21926 | vinitpawar8305@gmail.com |github.com/Vinit8305

Full Stack Developer with expertise in Java,JavaScript,Node.js, and MongoDB. Skilled in building responsive web applications, RESTful APIs, and database management (MySQL, MongoDB). Proficient in Git/GitHub, Linux OS, and Agile methodologies with a strong problem-solving mindset. Passionate about developing scalable, user-friendly applications and eager to learn and grow in the software industry.

WORK EXPERIENCE

WERTONE IT SERVICES PVT LTD

Software Engineering   Jun 2025 – Present

- Developed responsive, cross-browser compatible features using **Angular**, HTML5, CSS3, and JavaScript.
- Integrated **RESTful APIs** to build dynamic and data-driven interfaces.
- Followed **Agile methodologies** to deliver high-quality UIs and seamless user experiences.
- Used **Git/GitHub** for version control and collaborative development, managing pull requests and resolving merge conflicts.

BUCKSTOX DIGITAL SERVICES LLP

Software Associate Engineering   Jan 2025 – May 2025

- Implemented **lazy loading** and code-splitting techniques in **React.js applications** to enhance performance and reduce initial load time.
- Integrated third-party APIs and implemented **JWT-based authentication** for secure user login and session management.
- Used **Promises, Async/Await, and Fetch API** to handle API calls and improve user experience.
- Designed **normalized database schemas** to improve query efficiency and reduce data redundancy in MySQL and MongoDB.
- Utilized **try-catch blocks, console debugging, and JavaScript error handling techniques** to troubleshoot and enhance code efficiency.

KODS TECHNOLOGIES PVT LTD

Internship   Jul 2024 – Dec 2024

- Developed responsive web pages using **HTML5**, **CSS3**, and **Java, JavaScript**, ensuring cross-browser compatibility and mobile responsiveness.
- Implemented asynchronous data fetching using **AJAX** to improve user experience by reducing page reloads.
- Created RESTful APIs using **Java** and **Node.js (Express.js)** for scalable web applications.
- Developed full-stack applications following **Microservices architecture**, ensuring modular and maintainable code.
- Collaborated on integrating **frontend (React.js)** with **backend APIs** developed in **Java** and **databases (MySQL/MongoDB)** using REST endpoints**.**

PROJECT

WedBazaar

- Built a full-featured e-commerce platform similar to Amazon, focused on wedding-related products and services.
- Developed a responsive and dynamic frontend using **Angular**, **HTML, SCSS**, and JavaScript.
- Integrated **RESTful APIs** for product listing, cart operations, user authentication, and order processing.
- Implemented Angular **Material UI** components for a polished, modern user experience.
- Focused on performance optimization, **reusable component** structure, and maintainable codebase.
- Used **Git and GitHub** for version control and collaborative development.

Technologies Used - Angular, JavaScript, HTML, SCSS, Angular Material, RESTful APIs, Git, GitHub.

Election-AI App

- Developed an **AI-powered** election strategy tool that gathers and analyzes survey responses from users on government facilities to help politicians improve decision-making.
- Designed and implemented core backend logic using **Node.js and Express.js** for seamless API handling.
- Developed an interactive frontend using **React.js** with **Redux** for efficient state management.
- Integrated **MongoDB** for storing and processing user responses securely.
- Managed version control and collaboration using **Git and GitHub**.

Technologies Used - Linux, MERN Stack (MongoDB, Express.js, React.js, Node.js), Git, HTML, CSS.

Restaurant Reward System

- Developed a customer loyalty system for restaurants that rewards frequent visitors with redeemable points for complimentary meals.
- Designed an **algorithm** to compute and allocate reward points based on customer visits.
- Developed a **Java-Python** integrated system for data processing and user interaction.
- Implemented **Git version control** for tracking updates and maintaining code integrity.
- Created a responsive web interface using **HTML and CSS** for seamless user experience.

Technologies Used - Java, Python, Git, HTML, CSS, Windows OS.

EDUCATION

RGPV UNIVERSITY   Bhopal, M.P
BE (Bachelor of Engineering)

2023

CERTIFICATION

FULL STACK DEVELOPMENT CERTIFICATION - Vector Skill Academy

ADDITIONAL

Technical Skills: Java, HTML5, CSS3, Javascript, ES6+, React.js, Ajax, Redux, Hooks,Angular, Context API, MongoDB, MySQL, Node.js, Express.js, Git/Github, Responsive Web Design, SDLC, Microservices, IntelliJ, Vs code, Eclipse, Waterfall, Agile Methodologies, Team Collaboration.

Languages: Fluent in English & Hindi both.
